

# Health Source Plus

## Database Coverage List

**Formats:** Online, CD-ROM

423 = Total number of titles indexed and abstracted

258 = Total number of full text titles

# indicates that full text is only available via the online version.

\* indicates that full text is only available via the CD-ROM version.

† indicates that EBSCO offers imbedded images for this title.

p indicates that EBSCO offers PDF images for this title.

@ indicates that this publication was recently added to the database and therefore few or no articles are currently available.

**Please Note:**

Periodicals included on this database are subject to change without notice due to contractual agreements with publishers. Coverage dates shown are the intended dates only and may not yet match those on the product. A small number of titles are not available through some delivery systems due to publisher restriction on distribution.

The numbers given at the top of this list reflect all titles, active and ceased.

All online coverage is cumulative. CD-ROM coverage is rotational (full text = 3 years; indexing and abstracting = 5 years).

Due to third party ownership of full text, EBSCO Publishing is dependent on publisher publication schedules (and in some cases embargo periods) in order to produce full text on its products.
