CHALLENGE TO GOVERNOR CURLEY.

Non-Jewish gullible statesmen have at all times in the history of the world been made to thresh out the difficulties into which the Jews through their own anti-social behavior have put themselves. Unschooled in the true facts of history, as concerns especially those direct influences which molded history for the past 2000 years - Jewry and Freemasonry - our American statesmen of this period in particular would do well to conceal somewhat their gross ignorance by strictly minding their own business, if they do not know well enough to thoroughly investigate developments in modern history that are ushering in a new era of true progress, away from these influences.

Reference is made to Governor Curley of Massachusetts as well as Speaker Saltonstall of the same state, who defended the resolution of the Massachusetts House of Representatives, denouncing "religious persecution" in Germany.

We uphold the right to question the presumption of Governor Curley in terming his own opinion as the "honest and open expression of the opinion of Americans generally."

The Governor fails to enumerate the sources of gathering this "opinion of Americans generally." It is certain that he made no efforts to ascertain the attitude of those American circles, who - Germany or not - are long conscious of the significance of the Jewish question in America, and in whom the conviction of the need to solve the question daily grows more firm. The Governor would do well to move out of the circle of his present political affiliations if he sincerely desires to gather the "opinion of Americans generally."

To Americans who are today already risking their very lives in the struggle against the onslaught of Bolshevism, an opinion as expressed by the Governor and Speaker of Massachusetts, is nothing short of ridiculous.

Certainly the Governor's knowledge of the history of his own state is not based upon the facts of history itself but is an echo of the interpretations of America's history in the light in which those whom he defends want our history to be known. The Governor partly states in his letter to the German Consul General Baron Kurt von Toppelkirch, who protested against the resolution adopted by the Massachusetts House of Representatives as interfering with the "internal affairs of Germany:"

"Massachusetts from the beginning of our government has been regarded as one place in the world in which the public could assemble and give honest expression to what the world rightly regarded as oppression or persecution upon the part of any nation in the world."

We wish to remind Governor Curley that Massachusetts holds a dear place in the heart of all Americans, not just because of its historical importance, but because this

COMRADE F. D. R.

Once and for all the purpose of the Roosevelt administration was stripped naked of all false idealistic pretenses. It stands exposed for all Americans to recognize as the preparatory plan of the Hebraic gangster leaders in Moscow to completely sovietize the government of the United States.

continued on page 3

state in its early history was expressive of the purest spirit of Americanism. This is ably illustrated in Madison Grant's racial history of America, "The Conquest of a Continent:"

"The predominant influence of Massachusetts at the time of the Revolution is easy to understand. It possessed, to an unusual degree, unity in the various fields in which unity is most valuable to a nation - unity of race, unity of language, unity of culture (which can exist only where there is unity of blood. Ed.), unity of religion, unity of institutions - and, more than anywhere else in the United States, its unity was attained through a long-continued, independent growth on American soil."

If the present Governor of Massachusetts will examine the annals of history of his own state, he will find the facts stated by Madison Grant to be true, and the spirit of early Americanism different than what the purpose of Governor Curley's words would imply.

The liberalistic opinion of the Governor was resounded by Governor George H. Earle of Pennsylvania, on the occasion of the State convention of the American Legion. But this occasion at the same time established the fact that the opinion expressed by both Governors was NOT the opinion of the American people!

Governor Earle openly "urged the American Legion to ignore anti-Red drives in this country and follow the 'path of liberalism' in order to 'block the attempt of organized wealth to deliver us into fascism and dictatorship.' He dismissed as negligible the present influence of communism and socialism." (N. Y. Times Aug. 18.)

That the same forces who controlled the "opinion" of these two Governors also sought to influence the opinion and action of the American Legion in a body, is shown by reason that at the state convention a resolution was introduced by the resolutions committee to petition the committee in charge of the American Olympic team to withdraw from participation in the games to be held in Germany in 1936. This resolution was rejected at the first meeting of the committee but revived at the special session. A delegate, whose name is withheld by the press, however attacked the resolution, and told the Legion pointblank to "mind its own business," which is in essence exactly what the majority of Americans, who have not yet delved deeper into the problems of our own nation, are today thinking, while that portion which understands our national problems wishes but to emulate Germany.

This proves but one thing, *viz* that the so-called leaders of the American people, no matter what official office they hold in Federal or State government today, are the tools of the Super-Government of Judah. Having themselves become involved in the thoroughly corrupt professional politicians' government, or being indebted to Jewish power for their very positions, they owe obedience to their Jewish benefactors and dare not express their own opinion regarding national or international matters, much less act according to their own convictions.

If the press and the remaining powerful propaganda organs which are exclusively in the hands of the Jews in the United States were at the command of the American people, the "news of the world" would bear different features!

Such headlines as "Miss Perkins Assailed for Alien Activity," "Anti-Semites Routed" and "Nazi Ousted From Swiss Post," etc., would appear in more conspicuous letters and the truth would be made known.

We wonder if our statesmen who so readily jump to the defense of Judah, would defend with equal readiness the rights of Dr. Porzig, Professor of Germanic languages at the University of Berne, who was discharged because he refused to sever his connections with the Swiss National Socialist organization of Berne? Though it may be difficult for Governor Curley or Governor Earle to grasp the fact, it is nevertheless irrefutably true, that an Aryan, whether he be German, British or American, can no more deny the National Socialist doctrines than a Jew can deny the beliefs that have sprung from his race. There is therefore no more truth in the contention, that the professor was discharged for his "political beliefs" than there is truth in saying that a Jew is discharged for his "religious beliefs."

Rumanian nationalists, whom the press prefers to call "Anti-Semites," were attacked by police and dispersed with tear bombs in a Bucharest summer resort. Their camps were dissolved and the "anti-Semites" forced to leave the sea shore; the Jews,

in other words, were accorded prior rights and the Rumanians "persecuted" and driven from the camp. Anti-Jewish feeling in Rumania is as strong as elsewhere, but it is forcefully suppressed through the efforts of Madame Lupescu, the Jewish mistress of King Carol.

We now petition Governor Curley of Massachusetts and Governor Earle of Pennsylvania, to protest to the Rumanian Government for the cruel persecution of its own people!

Governor Curley, who insists that the program of the National Socialist Government is "not in keeping with the spirit of the times," may considerably change his much advertised opinion by improving his knowledge on past history. He will find that for the past 2000 years our history was little more than a continuous struggle between the white races and the Jews. This struggle has passed into its final stages. IT IS A STRUGGLE UNTO DEATH, and there is no escape. Both combatants (the Jews have always known it, but the others are only gradually becoming aware of it) know that victory can be but one-sided. But for Germany, the Jew in all other countries, momentarily has the more favorable position in the fight because his opponent is drugged and his strength paralyzed. America, in particular, requires several severe shocks, such as national tie-ups, through strikes, inflation, Bolshevist uprisings, bloody street-fights, to revive it from its semi-conscious state.

We would of course not expect the Governors Curley and Earle, to study National Socialism or investigate the true conditions of Germany, or to examine the necessity of the various decrees which the Reich found necessary to pass for the protection of its own people, but we believe that it is not too presumptuous to ask the Governors to study the history of their own country in the light of race-knowledge. We recommend the books of Madison Grant, Lothrop Stoddard, and the just recently published books "Anti-Semitism: A World Survey," proving that anti-Judaism is not new but as old as humanity, and "America's Ju-Deal" which proves is infested with Jews who are determined to destroy it, by Franklin Thompson.

These books and many others which are appearing on the market throughout the United States in quick succession, express the REAL OPINION OF THE AMERICAN PEOPLE, and it is therefore ironic, to say the least, to hear the "leaders" of these American people state the the American people - the while they are almost despairingly fighting the Jewish menace in their own country - tell another government that has victoriously conquered that very menace, that the American people object to the program which they themselves seek to establish in their country!

COMRADE F. D. R. (From page 1)

This plan as well as the follow-up plan now in progress were openly flaunted before the American people by Earl Browder, secretary of the American Communist Party and Georgi Dimitroff.

It was again pointed out at the international congress of world Communism that patriotism and nationalism are a hypocritical effort to establish a "Fascist" form of government in the United States, for the reasons as explained in the last number of the American Bulletin. All the tried tricks of the art of lying and distortion are again employed to confuse the mind of the American with false illusions of terms about which he knows nothing or at best only very little.

The New Deal is un-American and originated in the minds, not of white American stock, but of the race-compatriots of Karl Marx, who today live to fulfill his plan of a world revolution. This is once more exemplified by the command issued in Moscow to United States Communists and Socialists to support the Roosevelt administration and fight all anti-New Deal forces.

A note of absurdity lies in the fact that the New York Times, one of the nation's most powerful Jew-controlled finance capitalist papers, in the generous report on the congress quoted the words of Dimitroff that "The reactionary circles of American finance capital that are attacking President Roosevelt and his New Deal are the real force behind fascism in the United States, and, inferentially at least, the true target of the American Communist party in its fight for an anti-Fascist united front."

The article in the Times was titled: "FASCIST AIM LAID TO U. S. FINANCIERS," revealing thereby only too well that this paper supports the aims of Communism, also refuting the lie that patriotism or nationalism (paraded by the press as Fascism), is bought by finance capital to outlaw Communism.

That Roosevelt was destined by Moscow to become the Communist president of the United States and that plans for the next election are again being made in Moscow is established by the following revealing statements broadcast by the Rev. Gerald B. Winrod, from Siedras Negras, Mexico, May 31, 1935:

"I have a friend in New York City by the name of Col. E. N. Sanctuary.

Col. Sanctuary recently sent a letter of inquiry to Mr. Carveth Wells, the noted explorer.

Mr. Wells has written a book, explaining the true situation in Russia, entitled 'Kapoot.'

The word 'Kapoot' means to explode or to burst. Mr. Wells says that Russia has literally exploded.

Carveth Wells was touring Russia during the latter part of 1932, when the last Presidential election was being held in the United States. In his book he says that the leaders in Russia were referring to Mr. Roosevelt as a Communist at the time when the election was being held here in America.

Col. Sanctuary sent to Carveth Wells a letter of inquiry, with reference to this particular matter and Wells replied as follows:

'Dear Mr. Sanctuary:

I have only just returned from Bermuda, hence the delay in replying to your letter of March 1st.

At the time of my visit to Russia, the Presidential Campaign was in full swing over here.

In many places I saw large cartoons of Mr. Hoover entitled "The Fathead in the White House" and beside them very flattering portraits of Mr. Roosevelt entitled "The Next Communist President of the United States."

At that time the names of Bullitt and Tugwell were unknown to me, so that I was puzzled when young communist guides would ask me when Comrade Tugwell was going to have Russia recognized, and that Comrade Bullitt was going to be the first Ambassador.

Future events showed that the young communists of Russia knew more about American politics than I did!

Very sincerely yours
(signed) Carveth Wells."

The message coming from Moscow demanding a united front of Communists, Socialists and all other liberals, "against Fascism" and to support the Roosevelt administration means that in all probability the next election in this country has already been "settled" in Moscow. It has been decided that Roosevelt must be re-elected to complete the Communist program in the United States. America's degenerated humanity and a conglomeration of underdog types will be used by the Soviet government to direct the coming election.

Who the leaders, directing America's politics, are, is explained by Adam J. Tawdul, who was formerly a high official in the Soviet Union, in telling of his experiences in the land of famine in the New York American:

"We found, instead of the rule of the proletariat, the rule of an Asiatic satrapy wearing the trappings of internationalism."

No truer words have ever been printed in a Hearst newspaper! We wonder if Mr. Tawdul was requested to change the word Jews into Asiatic satraphy!

From Mr. Tawdul further comes the fact that in the famine of 1932-1933 at least ten million people perished, which information was confided to him by highest Communist circles. When we review the ravages already wrought by America's "Ju-Deal" in its infancy, the tragic fate of Russian peasants can easily be comprehended, but it is also simple to foresee the fate of America's future under an absolute dictatorship of Judah.

The sudden plunge of the finance capitalist press into a campaign, hoisting the "ideals" of communism, and the united effort in every possible way to block a national movement by discrediting through misrepresentations and distortions a nationalist government, proves that the enemies of National Socialism, which the press seeks to hide under the term of "Fascism," are not the American patriots and nationalists, but finance capital, and Communism, both international, being of Jewish source.

Regarding these two political extreme opposites: National Socialism and Communism, it may now be said that the American people can be classified as to their political tendencies into two definite groups: those who are enemies of Communism and as nationalists favore National Socialism; and those favoring the Bolshevist regime in Russia - consequently enemies of National Socialism and enemies of the American nation as well.

Americans who are well aware of the dangers of Communism and are opposing its growth in this country, in justice to themselves and their country, owe it to themselves to acquaint themselves with National Socialism, with a view to adopting similar measures in America as the only practical way to fight Communism. Since the press as an instrument in the hands of the deadliest enemies of National Socialism can be expected only to continue to perplex the already confused minds of the American masses, it is the duty of every single patriot to work for clarity and devote his efforts to forming a united national American front against the international front of Communism as promoted by international Jewish finance!

JEW AT THE CRADLE OF THE CZECHOSLOVAKIAN REPUBLIC.

A singular example of how Jewry seized control in the various States after the World War by erecting everywhere a "free Republic," has come to our notice. An article which appeared in the Slovenska Narodni Jednot (Czechoslovakia) on February 1, 1923, by Rabbi Dr. Alexander Stern, leaves no doubt as to the genuity of the Protocols of Zion, and easily serves to illustrate the procedure of systematically carrying out this plan. The article was titled as above and contained the following revelations:

"In referring to the information and the material of Franz Benesch, I must ascertain that the beginning of the movement of our republic is yet shrouded in darkness, so that there may be some who believe that the republic was a kind of surprising product of the Versailles peace conference. To counter this opinion, we must point at the historical merits of the Czechoslovakian Jew Freund of the city of Brandeis a.d.E., in behalf of our (!) independence. The Parisienne "Alliance of the Friends of France" had a Jew as president, and it was just this Alliance that created the Czechoslovakian State. The Senator Freund-Deschamps, the Jew Wedeles and Srbek were bankers that put under way the Czechoslovakian movement. The pressagent Kopel as well as Kudrnac, the first secretary of the minister Benesch, were also members of the Alliance which had expressed its sympathies for France in public.

"The moving strength was Dr. Benesch who sought to establish connections with the French Republic, whereby Freund prepared the way for him at the first financial difficulties. Freund and the Jew Wedeles each sacrificed 100 Francs for the independence movement. Through their intermission also it was possible to make Masaryk a teacher at the University in Oxford.

"These small gifts, in which Srbek also shared, however, sufficed only for the beginning. Soon it was necessary to have a budget of a million, and credits were accordingly raised in France and England, about the amounts of which there is to this day no definite information. It might be possible for Mr. Wedeles in Paris, or Lord Rothschild in London to furnish some knowledge regarding these.

"May these memories not be conceived as indiscreet exposures, but as certain and indisputable proofs of the fact that we Jewish citizens are in this republic, which we (!) systematically and out of little stones, through the most favorable circumstances, have erected, have a just claim to the full rights that have been granted (!) to us, and it affords me great pleasure to have been given the opportunity to ascertain that: When the cornerstone of the Republic was laid, the Jewish Mason (Freemason)?

acquired for himself imperishable merits."

THE REAL MOTIVE AND POWER BEHIND RELIGIOUS STRIFES!

Jewry found another outlet for its torrent of hate against the National Socialist government of Germany, by using the just steps this government has taken against political clergy, who by siding with Bolshevik leaders against their national government, assist the hostile outside pressure through inside agitation, or those who have been caught unlawfully transferring monies out of the state, as a pretense for "religious persecution." In shocking terms it was related how "innocent" priests were sentenced to jail.

The clergy and religious bodies in the United States joined the sworn enemies of religion, in protesting against the "religious persecution" in Germany, and protest was even sounded in Washington at these "outrages against civilization." But, although Catholic units have strenuously sought action on the part of the Federal government to interfere in the religious strifes in Mexico, no action is forthcoming. The disturbances in Church conflicts in England received only scant press notice, despite the fact that 6 men and 1 woman were killed and approximately 95 or more persons seriously injured in riots between Catholics and Protestants.

"The Fascist," organ of the Imperial Fascist League moves the confessional struggle between Catholics and Protestants into a clear light in the following article:

"There has been a great deal of street hooliganism in Edinburgh in opposition to the recent Eucharistic Congress held there, and the Roman Catholic Archbishop has issued a statement complaining of this organized violence.

"Who stirs up this strife between Aryans in the name of religion?

"At the Evangelist Crusade meeting at Albert Hall, on July 11th, Lord Justice Slesser, after reading out a message from the Archbishop of Canterbury, ended his remarks with a reference to 'the restoring belief in the Catholic Church.' A disturbance immediately and naturally followed, and struggling shouting men had to be removed from the Hall. And Slesser is Jewish.

"Whenever an aggressive religious spirit is manifested, one is justified in looking for a Jewish disturber of the peace. In Ireland, the arms for the fray were provided by the Jewish Erskine Childers and the money through the Jew Briscoe; then the Roman Catholics and the Protestants began murdering one another.

"The Jew is in danger and he knows it. "Divide and rule" is his own rule. His cue is to stir up trouble between Catholic and Protestant in Great Britain so that they will forget him.

"Unity among the Aryan people of this country is only possible as long as they are resolved to leave religious belief to the individual without interfering with him as long as he behaves decently."

Where it is difficult for the Jew to divide people of the same blood into at least two political parties that will fight each other for his benefit, he divides them into opposing factions through religion. And where he has won complete control, he tolerates neither political nor religious opinion, but destroys those who in any way resist his rule, as in Russia.

The destruction of religion and Church property in Russia by the Bolshevik regime never stirred a whisper of protest. It is therefore surprising that the New York Times reports the sending of Lutheran ministers to Siberia by the Soviet government. The report coming from Helsingfors, Finland, based on the experiences of a refugee who was able to flee into Finland, states in part:

"I witnessed at Jelisavetino station deported peasants leaving by two trains, both so long that double engines were required. All of the deported persons were Finns and Estonians. Between Gatchina and the Estonian frontier the whole Estonian population is reported to have been sent to Asia."

The report continues: "The refugee said it was heartrending to see the Soviet agents black motorvans moving from village to village collecting people to be deported. So thoroughly is this activity being carried out that many localities are now entirely drained of inhabitants, he asserted. Lutheran ministers, he said,

particularly drew the Soviet agents' disfavor, so that several parishes were bereft of clergy."

It is remarkable how inventive the Jews can be in condemning the "religious persecution" in Germany, but the stark tragedy of the few remaining ministers in Russia being exiled to Siberia together with thousands of peasants and being thus condemned to a slow death of starvation, does not trouble the "humane" conscience of our illustrious statesmen, BECAUSE THE JEWISH PRESS IS SILENT.

The true motive behind this "religious persecution" propaganda on the part of Communists and Jews is but to keep the American people from learning the true facts about a Germany whose internal conditions, economically and spiritually, are on a higher level than in any other country because the eternal promoter of warfare must keep his silence.

BRANDEIS - AN ELDER OF ZION.

While the names of Wallace and Tugwell appear in constant repetition in the daily press in connection with the disastrous results of the New Deal, the names of the real authors of this destructive philosophy are barely known to the American people. Justice Brandeis is known as a member of the Supreme Court. He was, according to Gen. Hugh S. Johnson, the framer of the New Deal. His mission in the United States government for the Jewish people is well defined in an interview by a California Judge, published in the Jewish Post, August 1st, Paterson, N. J.

"At that time (15 years ago at a Zionist convention) he was, although not officially so, the real leader of the entire Zionist movement, not only of the country, but of the whole world . . . I was startled to see in him a close resemblance to Lincoln, as the emancipator (?) must have looked just before his martyrdom. As he spoke it was as though a prophet of Israel was before us. His speech was simple and so clear and lucid that all our difficulties seemed to vanish as he talked with us . . . When he left the room, all of us said, "Here truly is a Prince of Israel and a prophet, too. . . He is one of the best informed men in the country. He knows everything that goes on. . . When I left, the main impression of him I took away with me was power, strength, virility, wisdom, mellowed by the flight of years, and an unshakable faith in the cause of Jewry and in the possibilities and destiny of the Jewish people (in America? Ed.)."

Louis D. Brandeis - an Elder of Zion, 15 years ago not only leader of the Zionist movement of this country, but the entire world! A man directing the course of American politics, whose mission in life is to fulfill the prophesies of Israel! Is it surprising then, that the New Deal is an exact duplication of the "Protocols of the Elders of Zion" in practice?

IMPUDENT COMMUNIST PROVOCATION

The report of the Harlem riots by the Mayor's sub-committee, condemning police, was severely attacked by the Rev. William R. McCann and the Uptown Chamber of Commerce.

The Rev. McCann, himself appointed by the Mayor to the sub-committee, clearly stated the true findings of the investigation:

"At the first meeting of the committee which I attended, I found a definite prejudice against the Police Department. I voiced my objection to starting the investigation harboring a prejudice against established law and order.

"The open hearings on crime were nothing more or less than orgies of police-baiting."

The Chamber of Commerce in a letter to the Mayor stated that "law-abiding citizens" of both races became disgusted with the manner in which the committee's hearings were conducted.

The American Bulletin, reporting on the investigation on May 22nd, stated that the whole affair is thinly disguised Communist propaganda, as evidenced by the obvious disregard of testimony in favor of the Police, and a sign hung in the lobby of the courthouse, referring to the investigation as "POLICE BRUTALITIES."

Arthur Garfield Hayes, appointed by La Guardia as chairman of the committee, is a Jew-Communist, long active for the Communist cause, and is responsible for the disgraceful procedure of the investigation. The hearings at no time proceeded in an orderly manner, but were constantly interrupted by the loud protests or applause of the audience, composed entirely of Negroes who had been roused by Communist agitation. Hayes, whose pronouncedly Jewish face, presented a comical picture amid the hysterical mob of Negroes, deliberately conducted the hearings in such a manner as to further arouse the Negroes' disrespect for the police.

It was not for a Jew, who has been known to previously defend Communist activities, to ascertain if the riot was due to Communist agitation. The entire report of the Jew Hayes is itself evidence of the fact that the farce of the investigation was another framed Communist plot to maliciously discredit established law and order and the rightful interference of police officers in Harlem riots. The obvious purpose behind this report, which blamed the police for starting the riot, is to weaken still more the power of the law and remove the last obstacles in the way of a Communist uprising in Harlem.

This investigation is another link in the long chain of evidence proving that the Jewish Mayor of New York City deliberately promotes the growth of Communism in this city by undermining the power of the Police Department and incalculating disrespect for the authority of law and order in the city's population.

Law-abiding and peace-loving citizens of New York must join now already in blocking the re-election of this Communist agitator!

C H R I S T I A N S O N L Y !

Special ire seems to have been caused among our Jewish fellow-citizens because of a new "discrimination" in Germany against their race-compatriots, as frankly expressed in signs posted all over Germany reading:

"JEWS NOT WANTED IN THIS PLACE."

Meanwhile complaint is strongly voiced for similar "discriminations" in America, in the Jewish Frontier of August. Although antipathy towards Jews in America is expressed less bluntly, there can be no doubt as to its genuinity.

The magazine quotes frequent instances where "Christian ownership" was stressed of summer resorts, tacitly but firmly barring Jews from sojourning at these places. Other favorite words or phrases indicating that "Jews are not wanted," openly displayed on signs were: "Selected guests," "We accommodate only gentiles," "References exchanged," "References, please," "Restricted," "Gentile," etc.

"The American variety of anti-Semitism, which like all other brands knows no season," the magazine states, is not confined only to summer resort places, but to rental ads in the city as well, and, we might add, to advertisements seeking help.

Anti-Jewish feeling in the United States is still at the stage where, although it exists as a matter of fact, its existence is almost shamefacedly hidden. There is too much danger according to American democratic ideas, that a candid, and unconcealed admission of disfavor for Jews might incur the charges of "prejudice," and injure the reputation of America's "liberalism" towards all creeds and races.

Nevertheless, as Jewish brazenness becomes more openly defiant and the Jew, who but 10-20 years ago was quite naturally excluded from not only resort places but from the public beaches in more restricted sections, through his arrogance gradually drives Americans from the places of recreation and enjoyment which were selected and beautified by them for that purpose, besides having practically shut them out of all business opportunities, they will be compelled to combat this evil more resolutely.

We hope that soon all signs reading "Christians only" will be converted to read "No Jews Wanted!"

Whoever wants to live, fight then, and whoever refuses to fight in this world of eternal struggle, does not deserve to live.

Adolf Hitler.

Throwing a light behind the scenes of Jewish power are the following extracts from the Jewish Post of August 1st:

Mrs. Jesse Isador Straus, wife of the American ambassador to France, is very happy these days because the French chief of protocol decided that she is to be listed at all social functions ahead of the Princess Nicholas of Greece . . . The town of Boksburg in South Africa is going to have a Dr. Landau Street in honor of the chief rabbi of South Africa, J. L. Landau . . . ITALY'S COMMANDER-IN-CHIEF AGAINST ABYSSINIA A JEW

The commander of the troops in Italian Somaliland is General Graziani. He has the reputation for being an efficient soldier, especially in a campaign where action is required. It was for this reason that he was appointed Commander of the Italian troops who occupied the Austro-Italian frontier on the occasion of the murder of the Chancellor Dollfuss in Vienna. It is not so well known that General Graziani is a full-blood Jew, and that his military qualifications are open to question. His claims to military distinction would appear in the first place to be based upon his reckless and inhuman ruthlessness. In Tripoli he put down a rebellion of the Senoussi, and won Cyrenaika for Italy. In 1931 he marched with his troops through the desert to the oasis of Kufra which he captured after an action against the Senoussi. He then caused the whole oasis to be laid waste, and everything on it to be levelled to the ground. Thus by getting at them in their weakest and their sorest point, he broke the resistance of this people who up to then had put up a fight of the utmost bravery and self-sacrifice. Deprived of the means of existence, these brave warriors died by thousands of hunger and thirst.

The Jewish General Graziani then proceeded to the merciless occupation of Cyrenaika. The typical Jewish brutality, with which he acted is indicated by the fact that at the time he drove up to a hundred thousand of the inhabitants into concentration camps, where the percentage of deaths became enormous. The result of Jewish colonial policy as carried out by Graziani, has been the depopulation of Cyrenaika; the few inhabitants surviving the conquest having for the most part fled to other regions for fear of Graziani's brutality.

POLAND HAS MOST JEWISH NEWSPAPERS

The "Tecza" a paper appearing in Posen publishes the following interesting details upon the Jewish press in Poland. It would appear that Poland is the principal centre of the Jewish press for the whole world. No less than 129 Jewish papers are published there. The majority of these are so-called Jargon papers, that is to say they are published in Yiddish. A few only appear in Polish, German, or Hebrew. In Warsaw alone 46 Jewish papers exist, whereas in the whole Zionist state of Palestine, there are scarcely 30 to be found. The Jargon papers appearing in Poland have a daily circulation of 500,000, whereas 48 weeklies have a circulation which

amounts to 200,000. Moreover there are six half-monthly periodicals with a circulation of 40,000. There are in Poland small cities with a population of 15,000, who have no Polish daily, but who nevertheless are supplied with two Yiddish papers.

We must organize! Good intentions are worthless unless converted into action. Join a militant American national organization that is fighting Judaism-Bolshevism-Communism. Do not cowardly stand by and see an alien parasitic people demolish your country before your very eyes. The program of the "brain trusters" has progressed far enough! It is high time for all loyal, patriotic Americans to organize a strong fighting group that will be able to crush the monster of Communism when it strikes. If you wish information about an organization of this type, please write to us.

Announcement:

We still have a limited number of old issues of the American Bulletin which are very excellent propaganda material. Since these papers bring the news of the day in the White Man's Viewpoint, it is easy to convert the indifferent. They will thereby see that there IS a way out, if they know WHAT is wrong.

These copies may be had at the price of 10 copies for 35¢ postpaid. Write for backnumbers to the American Bulletin, Box A, 1308 First Avenue, New York City.
